

Muhammad Yasin Abdul Hassim

Software Developer

yasinhassim43@gmail.com | +60 12-850 7469 | yasinhassim.vercel.app | Kota Kinabalu, Sabah, Malaysia

SUMMARY

Software Developer with full-stack experience across Laravel, React, and Vue/Nuxt, and a background in IT infrastructure support. Built and maintained production systems for government and agricultural-estate clients, including asset tracking, procurement, and budget management applications. Comfortable owning a feature end-to-end: backend APIs, database design, and responsive frontends.

SKILLS

Languages	JavaScript, TypeScript, PHP, Python, C++, Java
Frontend	React, Vue / Nuxt, Tailwind CSS, Material UI, Naive UI, Shadcn UI, Bootstrap
Backend	Laravel, Node.js, Express.js, Inertia.js
Database & Tools	MySQL, MariaDB, MongoDB, DBeaver, Git, GitHub, GitLab, Vercel

PROFESSIONAL EXPERIENCE

Datakraf Solution Sdn. Bhd. March 2025 – Present
Software Developer

- Develop and maintain backend APIs using Laravel, with MySQL databases managed via DBeaver.
- Build dynamic, responsive frontends with Nuxt (Vue), Tailwind CSS, and Naive UI, integrated with backend APIs.
- Implement server-side logic, including automated email and PDF template generation.
- Manage frontend and backend version control across separate modules and origins using GitHub Desktop and GitLab.
- Identify and resolve bugs in staging and production environments.
- Refactor and simplify source code to improve maintainability for the wider team.
- Ship new features and functionality based on evolving business requirements.
- Translate between technical implementation details and client business needs.
- Maintain and update the staging server for QA testing.

Teck Guan Group of Companies — Teck Guan Plantation Sdn. Bhd. January 2024 – March 2025
IT Technician / Web Developer

- Supported IT infrastructure and connectivity across 17 agricultural estates, resolving hardware and network issues to minimize downtime.
- Built a hardware asset-tracking system using Laravel/Sail, Material UI, and MySQL.
- Developed a purchase-tracking web application with Laravel, Inertia.js, React, Material UI, and MySQL to streamline procurement workflows.
- Contributed frontend development (React, Material UI) to a budget management application.
- Deployed and scaled Starlink internet connectivity for estate offices and field operations.
- Provided remote technical support to estate clerks and managed internet billing and hardware procurement.

Institute of Continuing Education and Professional Studies (iCEPS) March 2018 – May 2018
Fullstack Developer Intern

- Built a web-based system using HTML5, JavaScript, PHP, and MySQL.
- Designed a responsive frontend with Bootstrap 3 for cross-device compatibility.

LEADERSHIP EXPERIENCE

Econsave Cash & Carry Sdn. Bhd. November 2022 – September 2023
Supervisor

- Directed daily on-site operations and staff scheduling to maintain workflow efficiency.
- Managed sales and inventory plans that improved stock turnover.
- Resolved operational issues (POS malfunctions, customer disputes, IT problems) as the on-site point of contact in the absence of senior management.
- Conducted monthly inventory cycle counts for accuracy.

EDUCATION

MARA University of Technology (UiTM), Kota Samarahan, Sarawak
Diploma in Computer Science (CS110)

Interests: Camping, Archery, Guitar, Gaming
